Reasons for Allowance

Applicants' response to the last Office Action, filed on April 25, 2005 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 34, 48, 80, and 86 are allowable over the prior art of record. Claims 2-6, 35-40, 49-52, and 81-85 depend from claims 1, 34, 48, and 80 respectively, therefore, are allowed.

Independent claim 1 recites the limitations of :a parallel entropy encoder and wherein the most important data is not embedded and is coded in coefficient order without buffering, a portion of less important data is buffered, embedded and written to memory in order of importance. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

Independent claims 34, 48, 80, and 86 recite the limitations of : the encoder encodes a first data of coefficients in a set of coefficients in coefficient order, and then encodes a second data and embeds the second data by order based, in part, on a plurality of signaling bits. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

Art Unit: 2623

The closest references of 5966465 to Keith et al. and US 6229927 to Schwarz et

al disclose a method of context model encoding. However, they do not teach the

limitations of cited above.

In view of the amended claims and the Applicant's arguments, the rejections

and objections to claims 1-6, 34-40, 48-52, 80-86 are expressly withdrawn.

Contact Information

Any inquiry concerning this communication or earlier communications should be

directed to Jingge Wu whose telephone number is (571) 272-7429. He can normally be

reached Monday through Thursday from 8:00 am to 4:30 pm. The examiner can be also

reached on second alternate Fridays.

Any inquiry of a general nature or relating to the status of this application should

be directed to TC customer service whose telephone number is (571) 272-2600.

If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's

supervisor, Amelia Au, can be reached at (571) 272-7414.

The Working Group Fax number is (571) 273-8300.
